RECEIVE WITTE AS CONQUERING HERO

Envoy Accorded Hearty Welcome on Return to St. Petersburg.

GAVE OTHERS ALL CREDIT, DECLARES SPOKESMAN

Demonstration in Marked Contrast to Lack of One on Leaving.

ST. PETERSBURG, Sept. 28 -M. Witte arrived here at 8:25 a. m. today and was accorded a very hearty reception by a large crowd of officials and others. In a brief speech, replying to a welcoming address, M. Witte showed clearly that he was deeply touched by the welcome with which he was received. When he left St. Petersburg in July a small delegation of officials accompanied him to the railroad station to bid him farewell. There was no public demonstration whatever. Today there were seven or eight times as many officials, despite the very early hour of the train's arrival, and an en-thusiastic crowd of five to six hundred people were present.

Prominent Officials Present.

Among the officials present were Baron Noide, General Secretary of the Committee of Commerce; Gen. Durnoir, Adjutant to the Minister of the Interior; M. Wyschnegradsky, former Finance Minister and now Director of the International Commercial bank; M. Kobenko, Privy Counsellor and chairman of the Press Reform committee and many other prom-Reform committee, and many other prom-inent officials who had been M. Witte's former colleagues or subordinates.

Cheers Loud and Long.

The crowd had collected near where M. Witte would descend from the train and when he appeared they broke out into long and loud cheers, to which M. Witte bowed acknowledgements. The spekesman then advanced and read the address of welcome, all in the meanwhile standing bareheaded.

The address read:

Forgot Only Himself.

Forgot Only Himself.

You have accomplished your difficult task and the nation is grateful to you. You have given the credit for your success to Emperor Nicholas President Roseevelt, Emperor William of German and to the press. You have forgotten only yourself. We, however, fully appreciate your services to your country. The tree you planted at the Washington homestend at Mt. Vernus will serve as a mark of the token of the union between the two lations. You have done much.

For ourselves and for those who are absent we will once more shout a hurrah.

When the cheer had died away M.

we will once more shout a hurrah

When the cheer had died away M
Witte, who seemed deeply moved by the
sincerity of the welcome, advanced a few
steps and delivered his reply. He said:
I was so little prepared for this kind of a
reception that I must ask your pardon for the
incoherence of my words. I have performed
my duty well, because I have strictly obeyed
his Majesty's instructions, because circumstances favored me, because the world is
weary of this bloody war, because all classes
of American society, from Piesident Roosevelt down, were in sympathy with my and
your cause, because I was true to my country and her and your interests.

Further Hearty Cheering.

Further Hearty Cheering.

M. Witte's last word was followed by further loud and hearty cheering, after which, slowly advancing toward the entrance, he shook hands with the delizerer of the welcoming address and his friends or former colleagues. The crowd followed close toward the door, where an epen carriage was in waiting. As soon as M. Witte was seated the coachman started his team and as he drove away the crowd broke out into a succession of loud cheers.

FIVE ARE MURDERED

Mother, Daughter and Three Sons Most Brutally Slain.

BONA, Tex., Sept. E.—Mrs. A. J. Conditt and four children, a daughter of 13 and three boys from 6 to 10 years old, were murdered in cold blood at their home near here today. The mother and daughter were assaulted and their bodies brutally disfigured. A baby about 2 years old was the only one left alive. All of them seemed to have been murdered with some blunt instrument. Their heads were crushed and their throats cut with a knife or razor.

officers were informed at once and the en-tire country is out in posses in search of the murderers. It is supposed there were two of them.

Buffalo Printers Strike.

BUFFALO, Sept. 25.—Two bundred union job compositors struck here today for an eight-hour day. All Euffalo newspapers are on the eight-hour basis, and the strike does

OLD SORES

ROOTED IN THE BLOOD

Old Sores are the result of a deeply polluted, foul blood supply. The blood is filled with poisons, and as it finds an outlet through the ulcer, the surrounding parts become diseased and the sore eats deeper into the tissues and flesh and

Some years ago while at work, I fell over a truck and severely injured both ofmy shins. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were closed up the result would be fatal. Under this discouraring report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated I would be, neither have the sores ever broken out again, and some twelve years have elapsed since what I have described occurred. Having been so signally benefited by its use I can heartily recommend it as the one great blood purifier. Wheeling, W. Va. J. W. FUNDIS. Care Schmulback Brewing Co.

Salves, powders, plasters, etc., do no good, and the sufferer gets disgusted and often despairs of curing an old sore. The trouble is in the blood and until the poisonous matter that is keeping up the ulcer is driven out the place cannot heal. S. S. S. reaches these old sores through the blood by removing every particle of poison or impurity from the circulation and building up the system. It makes the blood

healthy so that as it circulates to the diseased parts the tissues are strengthened and the

PURELY VEGETABLE, sore can heal permanently. If you have an old sore or ulcer do not waste time with salves, powders, plasters, etc., but write for our book and ask for any medical advice you wish. We make no charge for either. .

FRANCE AND GERMANY FIX THEIR DIFFERENCES

Accord on Moroccan Conference Signed and Goes to Sultan at Once.

PARIS, Sept. 28.-Premier Rouvier and Prince von Radolin, the German Embassador, at noon today signed the Franco-German accord concerning the Moroccar conference, thus definitely terminating the difficult negotiations.

Preceding the signature Dr. Rosen, rep-senting Germany, and M. Revoil, in behalf of France, met at the Foreign Office and went over the final details of the proto-col. The official details of the accord will col. The official details of the accord will be given out later.

The official text of the Franco-German accord on the question of Morocco, as given out, says:

Text on Morocco.

The negotiations between France and Germany concerning the programme for the conference on Moroccan affairs has successfully terminated. Accord is reach on a programme comprising the organization of the police, the regulation and representation of contraband arms; financial reforms, consisting principally of the organization of a State bank, also the best means of collecting duties, and the creation of new means of revinue and also the determination of principles destined to safeguard the economic liberty of Morocco.

Reservation on Frontier. The agreement then makes a special reservation of the frontier region between Algiers and Morocco, where the maintainence of the policy will be regulated directly between France and the Sultan without submission to the conference. The regulation of contraband in the same region also recognizes for France to deter-

regulation of contraland in the same region also remains for France to determine with the Sultan.

The two Governments unite in asking that Spain accept Algecclas as the place for the conference.

French Participate in Loan.

Upon the question of the recent German lean to Morocco, it is agreed that French bankers shall participate with the Germans, and there is to be a similar participation of French firms in building the harbor works at Tangler if a French company offers loans equal to those of the German contractors. the German contractors

Submit to Sultan at Once.

Finally, the accord provides for the submission of the programme without delay to the Sultan and the signatories of the convention of Madrid. Upon its submis-sion to the Sultan both the French and German missions now at Fez will return to Tangler.

Gives Keen Satisfaction.

The Franco-German accord upon Morocco, signed today, arouses the keenest satisfaction not only on account of Morocco, but chiefly because it terminates the suspense of months which threatened to disturb the peace of Europe. Both the foreign office and the German Embassy were equally gratified to close the controversy. The final formalities brought cut an exchange of cordial felicitations between Fremier Rouvier and Embassador Radolin and the plenipotentiaries, Dr. Rosen and M. Revoll.

Is a Compromise

Is a Compromise.

The accord is interpreted as a com-The accord is interpreted as a compromise in which each side securies concessions. Chancellor von Buelow's proposition to submit Moroccan questions to a conference is finally realized, and M. Rouvier has carried his point of keeping France's special interests from the conference and restricting the remaining questions within exact limits. The diplomats consider the result highly advantageous in removing obstacles to a rappronchement between France and Germany. Commenting on this view, the semi-official Temps this evening says:

What France Wants.

France does not want an alliance out-"France does not want an alliance outside of that with Russia, but she is side of that with Russia, but she is side of the control of the con

THOUGHT HE WAS MARRIED

Physician Pronounces Ceremony at the Death Bed.

CHICAGO, Sept. 28.-Believing that chicago, sept. 28.—Believing that his last expresed wish had been gratt-fied and that his sweetheart. Miss Edith Bruszer, had become his wife through repeating the words of the

marriage ceremony by a South Chicago physician, Edward L. Boardman, a switchman, who had been crushed be-tween two cars, died yesterday in the hospital of the Illinois Steel company. The mother of the young man. Mrs Mathilda Bruszer, had hurriedly left for Chicago to secure a marriage license, but had not returned in time so a minister could be summoned. After the young man was injured he ex-pressed the wish that he and his flancee could be married before he died. Mrs. Bruszer had not returned and the young man, realizing that he had but a few moments to live, rehad but a few moments to live, requested Dr. Hannah S. Starrow, who had attended him, to pronounce Miss Bruszer his wife. Hardly had Dr. Starrow finished repeating the words of a marriage ceremony when Boardman fell to one side of the hospital bed. "My wife at last," he said in low tones. He tried to repeat the words, but expired.

out expired. A State law ignored in the issuance of the license is the one enacted at the last session of the Legislature, which provides that no third party can ob-

tain the license.
"Mrs. Bruszer explained the sad circumstances and I issued the li-cense," explained Marriage License Clerk Salmonson. "It would have been inhuman to do otherwise."

BROKERS WANT MORE MONEY

Question of Raising Grain Commission Rates Agitated.

NEW YORK, Sept. 28 .- The ques-NEW YORK, Sept. 28.—The question of higher commission rates on grain trades is being agitated by members of the Produce exchange and will come up for discussion at a meeting in the near future of the grain trade. It is believed that if rates just double what they are now were adopted just as much business could be done, and the profits would be much greater.

greater.

At present the rates are one-eighth of a cent per bushel for non-members and one-sixteenth of a cent for members. It is proposed to make the new rates one-quarter and one-eighth of a cent respectively for non-members and members. Now traders get \$12.50 per 10,000 bushels for non-members and and \$6.50 per 10,000 bushels for members. At the rates proposed they would get \$25 per 10,000 bushels for non-members and \$13 per 19,000 for members.

It is stated the Produce exchange will greater.

It is stated the Produce exchange will seek to get other exchanges here and elsewhere to agree to raise commission rates on grain trades at the same

SHAW TALKS ON

Before Bankers' Association Elaborates Plan for Elastic Currency.

BEST REMEDY HE KNOWS FOR ANNUAL ANXIETY

Would Allow Banks to Increase Circulation, Paying Interest, for Emergency.

CLEVELAND, O., Sept. 28.-The adiress of the Secretary of the Trensury. Leslie M. Shaw, was the feature of the morning session today of the convention of the Ohio Bankers' association. He urged that an elastic currency system be adopted. Mr. Shaw said in part

Best System in the World.

The fact, and I think it is a fact, that the United States has the best currence system in the world, does not imply that the currency system of the United States is perfect or that it examet be improved. It is as safe as any system on the world because it is established on the only safe basis, to wit. The gold stanlard. It is the most convenient system in the world because it is constructed on the decimal or metric system. It is not necessary to carry a lightning calculator in order to make change.

Non-Elasticity an Imperfection.

The system is not perfect largely because it is non-clastic. It falls to respond in volume a the changing needs of scarsons and of localities. Attention has been called to this many times and by many people. That there ill be no further currency legislation until re-shall have experienced a penic occasioned y this want of clasticity. I om convinced, the country does not appreciate the danger, and until the danger is fully understood no emedy will be applied.

Panic to Bring Remedy.

We came nearer such a panic September 20, 02, thus most people appreciate. The fact at we then excaped does not raise a premption that we will always escape it. A aring defect at a vital point will some time, on or late, assert itself. Meantime, a remember of the control of t

Annual Emergency Comes.

cally we have an excess of money dur-te spring and summer months. Annually ass through a period of anxiety as we ach the period of crop-moving for an of the volume of money is relatively in-tent to most this sudden increase of business. We do not need and must not have infla-tion. The average amount of money is, in my judgment, abundant. The difficulty lies in the fact that the volume remains sta-

What Shall Be Remedy?

what shall be Remedy? Shall it asset currency? In the popular acception the term, I answer no Asset currency, commonly understood, would mean limit and that we must not have Asset curcy, as commonly understood, would be sujed only by the solvency of the bank of 10. This must not be. Shall it be emercy currency? In the popular acceptation that term, I answer no.

than any other country on the map, but our chief commercial city is not the world's clearing house. It ought to be, but it is not. One reason why it is not is the faci that it has sometimes resorted to clearing house certificates, which is a plea of guilty to an indictment churging bad manuscement locally or bid legislation nationally, and the financial world charges both.

No Clearing-House Certificates.

No Clearing-House Certificates. Charing-house certificates must never be authorized by law. Let those who love our country and those who conserve her credit set their faces against such a course with the same intensity as they realist the free and unfinited coinage of silver. Clearing-house certificats debase our currency with the consent of those who are supposed to be the best financiers in the Nation. The free coinage of silver would debase it through positical upheaval. The threat of both I doubt not, contributes to that distrust which prevents foreign backers from keeping their international balances in America. Whatever the remedy must be, it must not advertise our calamity or our extremity.

Additional Bank Circulation.

Among this many remedles suggested, none appealed to me as strongly as the authorization of additional bank circulation. This method thoulves the right of National banks to increase their circulation in an amount serhaps equal to 10 per cent of their outstanding volume of Government bonds secured circulation, on which the bank should pay a ax of 5 to 6 per cent during the time it is maintained, and the Government, in consideration of the tax, should guarantee its redemption.

Ion.
You may call this, if you please, an emregency provision. So it is, but it injects
nto our streulation no new form of money
is an element of alarm. By eliminating the
one statement on the present bank note "this
sate is secured by bonds of the United
States," the additional currency could be
nade identical with that based on Government bonds.

Would Work Quietly.

Would Work Quietly.

The Comptroller of the Currency, and the bank issuing the currency would slone know of its existence. It would not advertise its existence or our extremity, and I can scarcely conceive of conditions under which it would remain out sixty days. It could be printed and kept ready for issue as occasion might require, and it would be retired, not by gathering up each individual bill, but by a deposit of an equal valume of money with any sub-treasury. Then the notes, as they came in, would be charged against this deposit until it was exhausted, after which redemption and re-issue would run on as before.

Manufacturers Elect Vice-President. NIAGARA FALLS, Sept. 28.—The Na-tional Association of Agricultural Imple-ment and Vehicle Manufacturers today elected Wakefield Baker of Benleia, Cal., a vice-president.

When you buy bread with the Crown Label, you are getting Royal bread. Accept no imitation.

Nine Germans Killed. CAPETOWN. Sept. 23.—The insurgent chief, Morengo, in an engagement September 35 in German Southwest Africa, captured horses from the Germans. Nine Germans were killed,

SPLENDID RAINSTORM FALLS OVER UTAH

More Rain, and Possibly Snow, Is Today's Weather Outlook.

If the splendid rainstorm which swept over the valley yesterday and last night was intended as the equinoxial storm it was a bit slow, but all the more appreciated. The rain fell intermittently from noon until dark,

Rainfall Is General. The rain came in from the west and the northwest, where the inhabitanta have been ealeying more than their share for several days past. Indications were that the storm was pretty general through the State, the storm center being between Modena, Utah, and Lander Wee.

Snow May Fall Today.

Colder weather, with local rains, is the fore-cast for today, and some old-timers were pre-dicting yesterlay that the storm would wind up with a good, old-fashloned snow. But the people who have suffered so much for want of water during the long summer would doubt-less be giral to welcome snow, even in Sep-tember, and so the thought generally will be, let the good work go on.

Yesterday's Record.

Maximum temperature, 76 degrees; minimum emperature, 24 degrees; mean temperature, 5 degrees, which is 2 degrees above the nor-est mid.

Accumulated excess of temperature since the first of the month, 70 degrees.

Accumulated excess of temperature since January 1, 496 degrees.

Negro Suffrage an Issue.

RALTIMORE, Sept. 23—At the Democratic State convention of Maryland, held in Ford's opera-house today, State Comptroller Gordon T. Atkinson was renominated and a platform adopted which, excepting a paragraph indorating the excellent business administration of the present Democratic Governor, Edwin Warfield, is principally devoted to the advocacy of the proposed constitutional amendment to restrict negro suffrage, which will be voted upon at the November election.

Armistice Is Postponed.

SEOUL, Sept E.—(Delayed in transmission)—Col. Chaba and Gen. Cossanansky, the Japanese and Russian representatives in North Koren, met Monday afternoon, September E. and again discussed the terms of the proposed armistice.

The Russians would not agree to the Japanese proposals, and the armistice has been postponed, awaiting instructions from Gen. Linevitch.

HIGH SCHOOL SENIORS ELECT THEIR LEADERS
